

ANNOUNCEMENT

INSTITUTE OF RESEARCH INNOVATION AND ENTREPRENEURSHIP

INNOVATION SUPPORT

Innovators who have products which may benefit from some modification in readiness to be exhibited early in 2021 may apply. Small grants are being provided to innovators in the following areas:

Renewable resources including

- energy
- materials
- bio fertilizers and pest control application
- water management

Equipment

- Agricultural
- Industrial
- Other

Computing

- Programmes
- Language
- Applications

Products (All)

- Natural Products including pharmaceuticals, cosmetics herbals
- Food applications
- Textiles
- Natural fibres (wood, NTFP etc.)

Application:

Primary Inventor's Name.....email Tel#
 Academic rank.....Number of years at UG.....
 Other Inventors Name.....email.....Tel#
 Faculty/Department.....
 How long have you been working on this project?.....
 Source of Funding.....
 Would this invention be ready for exhibition by February 2021?

Please describe the product in the table below:

Technical information
Name the technical field/subject of the invention
Answer: Abstract (< 200 words) Describe the technology and its application to the needs of Guyana
Technology application (Utility) (bullets)
Scalability

Developmental Budget

Signature
